Transitioning to Older Adulthood - Quick links

Transition Planning to Older Adulthood
This Guide focuses on the transition to older adulthood for people with developmental disabilities. It is important to keep in mind that transition to older adulthood is not merely about accessing a variety of programs available to senior citizens. It is above all a planned and conscious evolution to embrace life as it presents itself during the aging process.

Person Directed Planning
Articles and tools to help in the Person Directed Planning Process.
