

# Coronavirus; Sick at home social story

---

Sometimes people get  
sick from a cold or flu  
virus

---

**The coronavirus is similar to a flue or cold virus.**

People who become sick from coronavirus may have a cough, fever, or shortness of breath

---

**The coronavirus  
germs spread VERY  
easily.**

---

**When I feel sick, it means I cannot be close to my house mates and other staff to keep them safe.**

**I will need to stay in designated spots in my home like my bedroom until I feel better.**

---

Once I feel better, I can be close with my house mates, friends, and staff again.
